

Global Climate Promise Results Framework

EXPECTED OUTCOMES/OUTPUTS

OUTCOME 1

Countries have effectively strengthened inclusive and gender-responsive governance and financing mechanisms to enable delivery and tracking of NDC targets across sectors

OUTPUT 1.1

Inclusive **policies, strategies, plans and regulatory frameworks** (at national, sectoral or sub-national level) in place to support NDC implementation and help achieve SDGs

OUTPUT 1.2

Institutional capacities and whole-of-government coordination mechanisms strengthened to support effective, gender-responsive and inclusive NDC implementation processes

OUTPUT 1.3

Inclusive and gender-responsive **financing strategies, plans or investment frameworks** developed to define and mobilize diverse sources of finance (international/domestic public/private sector) to support implementation of NDC actions and drive green recovery across key sectors

OUTPUT 1.4

Data and transparency systems and processes for the Enhanced Transparency Framework established or strengthened to measure the achievement of NDC targets

OUTCOMES/OUTPUTS INDICATORS

1.1. Number of countries that have development plans and budgets that integrate Paris Agreement frameworks across the whole-of-government (UNDP Strategic Plan indicator 1.1.1)

1.2. Number of countries that have policy measures in place to enable the enhancement and/or implementation of NDCs under the Paris Agreement (UNDP Strategic Plan indicator 1.1.2)

1.1.1 Number of countries with inclusive policies/strategies/plans/regulatory frameworks developed and/or implemented (at national, sectoral or sub-national level) to support NDC implementation, including those that are gender-responsive

1.1.2 Number of countries which have developed NDC implementation plans and/or NAPs that establish linkages with the green recovery strategies, SDGs, and/or other international agendas

1.2.1 Number of countries with horizontal and vertical coordination mechanisms established or strengthened to support whole-of-government climate action, including those that are gender-responsive

1.2.2 Number of countries, where institutional capacities for NDC implementation have been strengthened, including on gender-responsive approaches

1.3.1 Number of countries which have developed climate finance strategies/plans, including those that linked to Integrated National Financing Framework (INFF), development plans and/or green recovery strategies, and those that are gender-responsive

1.3.2 Number of countries that have developed or strengthened budgeting processes across public finance management that integrate NDC measures, including those that are gender-responsive

1.3.3 Number of countries that have developed or strengthened policy or regulatory measures that are conducive to the mobilization of private capital for NDC implementation

1.3.4 Number of countries that have established or strengthened financing mechanisms or instruments for climate finance mobilization

1.4.1 Number of countries with strengthened or established MRV/M&E institutional capacities, processes or systems (for mitigation, adaptation or finance) to track NDC progress, including those that are gender responsive

EXPECTED OUTCOMES/OUTPUTS

OUTPUT 1.5

Implementation of NDC measures advanced in key sectors and cross-cutting thematic areas

OUTCOME 2

Countries have established long-term net-zero and climate resilient development pathways aligned with the goals of the Paris Agreement

OUTPUT 2.1

Countries are **enabled to enhance their NDC** as part of the next revision cycle and global/regional stocktaking, aligned to long-term mitigation and adaptation pathways linking with LT-LEDS and NAPs

OUTPUT 2.2

Strategies, resources and political will for long-term net-zero, climate resilient pathways are established or strengthened, including those with just transition measures

OUTCOME 3

Key actors within society are systematically engaged and empowered to contribute to accelerated NDC implementation, long-term net-zero and climate resilient development pathways

OUTPUT 3.1

National stakeholder engagement processes established or strengthened to empower key actors (e.g. indigenous peoples, women, youth and/or vulnerable groups), in participating and leading NDC implementation processes and long-term climate action

OUTCOMES/OUTPUTS INDICATORS

1.5.1 Number of countries supported to implement NDC measures in key sectors and cross-cutting thematic areas

2.1 Number of countries with development policies or plans incorporating long-term net-zero and/or climate resilient pathways aligned with Paris Agreement

2.1.1 Number of countries with revised NDCs that are of higher quality, including alignment with LT/LEDS or NAP

2.1.2. Number of countries with revised NDCs that are of higher ambition

2.2.1 Number of countries supported to develop long-term strategies or goals aligned with NDC targets, including considerations of just transition

2.2.2. Number of countries that integrate long-term strategies/goals into national, sectoral, or sub-sectoral development plans/strategies/policies/budgets

3.1. Number of countries with demonstrated stronger voice and strengthened capacities of key stakeholder groups in leading or engaging in NDC implementation and/or LTS related processes

3.1.1 Number of countries, where women, girls, youth, indigenous peoples and/or vulnerable groups are represented in decision-making mechanisms and processes to support NDC implementation and long-term climate action

3.1.2 Number of countries where the private sector is represented in decision-making mechanisms and processes to support NDC implementation and long-term climate action

3.1.3 Number of countries which report strengthened capacities to integrate gender equality in NDC revision and implementation and long-term climate action

EXPECTED OUTCOMES/OUTPUTS

OUTPUT 3.2

Innovative engagement mechanisms and initiatives are leveraged, developed and/or scaled up to promote social mobilization for climate action

OUTPUT 3.3

National/sub-national **knowledge-sharing and awareness-raising mechanisms** established and/or strengthened to build capacity of broader society and inform NDC implementation and long-term pathways

OUTCOME 4

Regional and global awareness, advocacy, and partnerships are strengthened to contribute to enhanced NDC and LTS ambition and delivery capacity

OUTPUT 4.1

Enhanced knowledge exchange and partnerships through global and regional forums/mechanisms

OUTPUT 4.2

Enhanced awareness and advocacy at global and regional level to support greater climate ambition and action

OUTPUT 4.3

Enhanced support at global and regional, level to **scale up transformative results for gender equality in NDC processes**

OUTCOMES/OUTPUTS INDICATORS

3.2.1 Number of countries where engagement mechanisms and initiatives have been leveraged, developed or scaled up to promote social mobilization for climate action

3.3.1 Number of countries where knowledge-sharing or awareness-raising with broader society on NDC implementation or long-term pathways has been undertaken or strengthened

4.1. Number of regional and global cooperation or agreements or commitments announced or strengthened

4.2. Number of countries which report increased knowledge of NDC implementation tools and best practices

4.1.1 Number of peer-to-peer exchanges carried out at regional and global level

4.1.2 Number of knowledge products generated and disseminated

4.2.1 Number of people reached via global and regional communication and advocacy activities

4.2.2 Number of people engaged through flagship advocacy campaigns

4.3.1 Number of global or regional learning exchanges or implementation of knowledge tools to advance gender equality in climate action
